Yearn for the days of cheaper components? Does a months salary seem to go no further than you could throw an London bus? Then feast your eyes on this! The very latest in Italian engineering. A veritable snip at less than £2.

## "PreStige"

**39/6**  
Complete

- ★ **A NEW DIMENSION IN GEARS!**
- ★ **A NEW DIMENSION IN PRICES!**

Our very latest gear the "PRESTIGE 532" has created a well-deserved sensation in the industry. The Dream Gear has come to stay. Anquetil won the Tour de France 1962 as well as the Grand Prix des Nations; Stabinski won the World Championship 1962... their cycles were equipped with the new Simplex "PRESTIGE 532". Until now cyclists using derailleur gears have experienced one or more of the following:

Arm breakages, complicated maintenance, noisy running, limited capacity, inefficient operation on close ratio, rusting. THE PRESTIGE 532 eliminates these defects and adds a number of new and invaluable features.

- ★ **ONE GEAR ONLY...** the PRESTIGE 532 fulfils every cycling need.  
CAPACITY 32 Teeth Front and Rear—SAME GEAR operates on chain 3/32" and 1/8", SAME GEAR operates on 2, 3, 4, 5, 6 speeds by instantaneous adjustment by hand (no tools required)—Gear is adjusted for operation in seconds.
- ★ **IMPROVED EFFICIENT PARALLELOGRAM ACTION—**  
Easy POSITIVE (no fumbling) gear changes as low as one tooth jump. Rotating cable securing device eliminates cable twisting.
- ★ **SELF LUBRICATING—NO MAINTENANCE REQUIRED**  
Silent long-life nylon rollers on ball-bearing, self-lubricating materials used, no oiling or greasing—maintenance consists of washing gear with water hose, on the bike... no need to dry it.
- ★ **HALF THE WEIGHT... MANY TIMES MORE RIGID than Steel Gear**  
The Arm of the PRESTIGE 532 is made from a "noble" material used in supersonics. The result is this: The PRESTIGE ARM is unbreakable in current cycling accidents. The arm is much more rigid (to side twist) than steel. YET, should it get twisted in an accident, it can do so up to 60 deg. AND WILL RETURN to its NORMAL OPERATING position. (Every cyclist knows that a steel arm twisted to only 10 deg. is "dead" beyond repair). GEAR ARM BREAKAGES ARE OUT. The PRESTIGE 532 is LESS than HALF the weight of a steel Parallelogram Gear.
- ★ **The "PRESTIGE 532" BEATS THE WEATHER**  
The PRESTIGE 532 is not affected by heat, cold, fog, water, rust, snow, and such salt compounds splashed from road surfaces.
- ★ **APPEARANCE?... MOST ATTRACTIVE**  
See it at your dealer, you will like it.
- ★ **PRICE! ONLY 39/6d.** for the rear gear PRESTIGE 532 complete with new Prestige lever and cables. Yes, all this specification which no gear of any other make possesses irrespective of their high selling prices is only at 39/6d.

The PRESTIGE 532 brings a new revolutionary technique to Derailleur Gears and with it a NEW DIMENSION IN SELLING PRICES.

**Le Derailleur Simplex Ltd. - 69 Manor Park Road - Harlesden - London, N.W.10**

John Grant points out that the suppliers may have had to raise their prices slightly as the this advertisement first appeared a short while ago.

Stephen Trott's performance in the Club 12 was a new club record.

This year, there was no club 30 Championship and no Hill Climb, due to a clash with the Duo Normand (really, I don't know why the Duo couldn't have checked before choosing that weekend – it's not as though we hadn't published our programme of events!)
