

## Worthing Excelsior ICE Tags

As you all know, at Worthing Excelsior we are passionate about safety, in particular safety of all our members whilst riding their bike. Every time we cycle, for competition, fitness or recreation there is a remote chance that something unexpected and unwanted could happen, and having emergency, medical or contact information immediately to hand can not only be beneficial, but ultimately save your life.

If one of these unfortunate events should happen, we want first responders to have access to your **IN CASE of EMERGENCY (ICE)** contact and medical information as soon as possible. We also want fellow members to be able to get a message to anybody expecting you home to let them know what has happened and where they can find you.

So, we have worked with the team at OneLifeID [www.onelifeid.com](http://www.onelifeid.com) to offer an **ICE** tag unique to WECC members in club colours which looks great and allows those first responders to gain access to whatever information you think they need, including:

- medical history
- insurance details
- next of kin or emergency contact
- etc. etc. - whatever you want really.

You will be provided with a set of 3 tags, each one third the size of a credit card which will look like this . . . .

. . . and can be attached to jersey and/or bike. In addition you will be provided with a **helmet sticker** showing that you are carrying **ICE** information.

Added benefits are that you can set up an **Online OneLife ID Profile** and a **Mobile Phone Emergency Screensaver** for even greater visibility and the ability to store and access more information.
